

Introduction

This document brings together the 2019-20 Canterbury Clinical Network (CCN) alliance groups (Workstreams, Service Level Alliances and Service Development Groups) work plans submitted to the CCN Programme Office May 2019.

Background

The CCN is an alliance of health care providers from across the Canterbury Health system. CCN was established in 2008 to provide leadership to the transformation of the Canterbury health system on behalf of the people of Canterbury. Within the alliance framework a number of alliance groups have been established around populations and/or service areas of identified need. These groups work collectively to bring together information on the needs of a specific population or service, identify where improvements can be made that offer the best value, and lead changes that will contribute to improved health outcomes and/or access to health services.

Annually each CCN group develops a work plan that captures their expected activity for the next 12 months. This work planning is undertaken alongside the Canterbury District Health Board's (DHB's) Accountability Team and the System Level Measures Project Lead, with the content of the CCN work plans contributing to both the DHB's Annual Plan and the System Level Measures Improvement Plan.

The CCN Alliance Leadership Team (ALT) endorses all work plans with the alliance groups then reporting on progress against their work plan priority actions quarterly and any risks that could impact progress in their focus area.

2019-20 Work Planning

In Nov. 2018 groups were provided with a work planning guide that included information on system priorities, a work planning process and work plan template for completion. Following this a number of alliance groups presented their draft work plan to the Māori caucus for discussion, including how actions in the plan address the health needs of Māori. Pacific input was provided directly through the alliance groups.

Key themes from the CCN Strategic Planning workshop (1 February 2019) were shared with alliance groups to consider alongside their work planning. These workshop themes will inform the refresh of the CCN's strategic direction for 2019-2024 and be included in this summary work plan when available.

Each alliance groups work plan includes:

- **Priority Actions:** Where the group will focus their efforts for the next 12 months.
- **Monitoring Actions:** Activity across the system the group will monitor.
- **Data Dashboard:** Key metrics the group will use as indicators of progress on their priority actions and health outcomes their work is contributing to.

Any alliance group work plan activity that is contributing towards improved equity outcomes is identified with the code **EOA** (Equity Outcome Action). Where activity is contributing to progress against Canterbury's System Level Measures framework; this activity is identified with the code **SLM** (System Level Measures).

STRATEGIC FOCUS 2019-2024

Early in 2019 Canterbury Clinical Network held a workshop with leaders working across health and social sectors, and consumers of these services, to consider how we focus our efforts to improve the health and wellbeing of our communities. Four key priorities emerged.

We recognise the Treaty of Waitangi as a foundation that guides our approach.

PRODUCTIVE PARTNERSHIPS

- Support partners to have an equitable voice
- Ensure commitment to common goals through clear rules of engagement, shared vision and language
- Develop relationships beyond the health system to address the determinants of health
- Enhance partnerships with groups that experience inequities, for example Māori, Pasifika, Culturally and Linguistically Diverse (CALD), people with disabilities
- Partner with Māori at every level and facilitate full Māori participation

MEANINGFUL ENGAGEMENT

- Provide regular training and mentoring that supports consumers to meaningfully contribute
- Proactively engage with our communities, with a focus on those the system doesn't work for
- Include a wider range of voices – different ages, ethnicities and experiences

PRIORITISE EQUITY

- Ensure diversity across all alliance groups
- Create a common understanding of equity for all alliance groups and partners to work towards
- Set time-bound targets, monitor performance
- Adapt our language and delivery to improve health literacy
- Identify priority groups that experience inequity through evidence and data

REDEFINE OUR ALLIANCE

- Review our mission and define our scope
 - Refocus our efforts on key priorities
- Build capability of current leaders and target future leaders
- Explore opportunities to strengthen the use of data available across the network
 - Capture and share lessons

OUR ALLIANCE PARTNERS

All alliance partners agree to act in accordance to the alliance charter, adhering to the alliance principles and rules of engagement.

Ashburton Service Level Alliance Work Plan

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
SECTION ONE: Priority Actions Towards Transformational Change, Improved System Outcomes and/or Enhanced Integration							
1. Safer, efficient transfers of care for the elderly	EOA	1.1 Progress work on integrated journey for people aged 65 and over.	Q1 Q4	<ul style="list-style-type: none">Working group formed and prioritised action plan completed.Agreed elderly pathway developed and implemented.	John	Carol Jenny	<ul style="list-style-type: none">Increased planned care/decreased acute care rateDecreased institutionalisation rates
2. Improving equitable access to primary care for all populations including Māori, Pacific, Migrant and CALD		2.1 Strengthen / maintain relationships between primary, secondary, tertiary and community care.	Q1-Q4	<ul style="list-style-type: none">Regular meetings held.	Malcolm	Brenda	<ul style="list-style-type: none">Increased planned care/decreased acute care rateDecreased wait timesDelayed/avoided burden of disease and long term conditionsPrimary care access improved‘At risk’ population identified
	EOA	2.2 Confirm access to primary care enrolment and identify opportunities for improvement, with a focus on access for Māori, Pacific, Migrant and CALD populations.	Q1 Q2	<ul style="list-style-type: none">Data gathered.Information reviewed and opportunities for improvement identified.	Sue	Michelle Carol Bill	
	EOA	2.3 Agree additional opportunities to facilitate enrolment in general practice including: <ul style="list-style-type: none">Transfers between practicesAccess for vulnerable populations, including ARC residents.	Q3 Q4	<ul style="list-style-type: none">Current process clarified and/or pathways developed for enrolment and transfer between practices.Pathways/protocols implementation by Q4.	Sue	Bill Carol Hiedee	

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
		2.4 Support the uptake of initiatives that assist general practice manage their capacity to enable timely access to care e.g. IFHS, patient portal, shared care plans.	Q4 Q4 Q4	<ul style="list-style-type: none"> Number of general practices participating in the IFHS programme. Utilisation of care plans across general practice (number of plans created and updated. Number of care plans created in Ashburton hospital. 	Sue	Bill Carol	
3. Continue with Access to Acute Care co-design recommendations		3.1. Agree and implement a process for non-enrolled (casual) and registered patients presenting at AAU or after-hours GP to access primary care.	Q3	<ul style="list-style-type: none"> Consistent process agreed and promoted across the district. 	Malcolm	John	<ul style="list-style-type: none"> Increased planned care/decreased acute care rate Decreased wait times Delayed/avoided burden of disease and long term conditions Primary care access improved 'At risk' population identified
		3.2. Standardise and implement consistent processes for people to access acute care including the use of the 'Call your GP 24/7' message across Ashburton.	Q4	<ul style="list-style-type: none"> Consistent utilisation of the 'Call your GP 24/7' message by Ashburton residents. 	Brenda	Hiedee	<ul style="list-style-type: none"> Increased planned care/decreased acute care rate Decreased wait times Delayed/avoided burden of disease and long term conditions Primary care access improved

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
4. Strengthen the integration and coordination of care and in collaboration with patients		4.1. Increase the use of Acute and Advanced Care Plans by primary, secondary and community care providers.	Q4 Q4	<ul style="list-style-type: none"> Increased number of care plans created in Ashburton hospital. Increased number of plans created and updated across general practice. 	Sue Brenda	Berni	<ul style="list-style-type: none"> Decreased wait times Delayed/avoided burden of disease and long term conditions. Decreased avoidable mortality. Decreased adverse events. Decreased institutionalisation rates. Increased planned care/decreased acute care rate.
5. Placeholder objective around Work Force planning		5.1. Still awaiting further confirmation of this action.			Greg	Mary	
SECTION TWO: Actions Towards Monitoring Progress							
6. Integration of Social Services within Ashburton		6.1. Identify opportunities for better alignment across health and social services, e.g.: <ul style="list-style-type: none"> Participation of ASLA member(s) in the Ashburton Community Planning Group. Expansion of alliance work group membership to include relevant social 	Q4	<ul style="list-style-type: none"> MSD engaged in progressing areas of mutual interest. 		Jenny Michelle	<ul style="list-style-type: none"> Improved environment supports health and wellbeing. People are supported to stay well.

	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
		services partners, e.g. MSD.					
7. Mental health integration and accessibility		7.1. Support the Mental Health Work Stream implement new initiatives in Ashburton.		<ul style="list-style-type: none"> Meeting quarterly with the Mental Health Work Stream facilitator to receive updates on any new initiatives. 		Kathy	Decreased avoidable mortality. Decreased adverse events. Improved environment supports health and wellbeing. People are supported to stay well.
		7.2. Monitor the Canterbury Suicide Postvention work in Ashburton.		<ul style="list-style-type: none"> Suicide Postvention team present to the ASLA on the work that is being done in the area 		Carol	Decreased avoidable mortality. Decreased adverse events. Improved environment supports health and wellbeing.

SECTION THREE: Key metrics the group will use to indicate progress with delivering work plan actions, impact on health outcomes and/or monitor performance targets.

Description of Metric	Data Source	Comments on access to data / metrics
1. Enrolment and non-enrolment data by ethnicity	CDHB/PHOs	
2. Shared Care Plan data on plans created and amended.	Collaborative Care	
3. AAU Attendance data including by age, ethnicity and enrolment status	CDHB	

Child and Youth Workstream Work Plan

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
SECTION ONE: Priority Actions Towards Transformational Change, Improved System Outcomes and/or Enhanced Integration							
Child Health & Wellbeing							
1. Support the development of Regional and District Child Wellbeing Strategies, particularly First 1000 days of a child’s life		1.1. Strengthen LMC’s understanding of key themes and referral pathways around: parenting skills; improving responsive relationships; treating mental health depression; and access to early childhood education; during their home visits.		▪ Improved uptake of nutritional advice, immunisation in pregnancy, SUDI education, family violence prevention, treating depression & anxiety, targeting zero alcohol consumption, and family planning,	Norma	Nicky	Improved Environment supports health and wellbeing. Delayed / avoided burden of disease and long term conditions.
2. Increase children’s readiness for School		2.1 Develop improved Early Childhood Health Education (ECE) support systems.	Q1 - Q4	▪ ECE relevant pathways in ‘Leading Lights’ developed.	Donna E	Wayne T	Improved Environment supports health and wellbeing.
		2.2 Support the redevelopment of the Paediatric Community Continence service.	Q2 & Q4	▪ Continence in 5 year olds is improved		Bridget L	Delayed / avoided burden of disease and long term conditions.
		2.3 Continue supporting alignment between Public Health Nurses and Kahui Ako.	Q1 – Q4	▪ Public Health Nurse’s activity supporting all Kahui Ako (Medium Term Measure)	Melissa K Vicky B	Bridget L	
3. Improve access to child development and family mental health services for children with		3.1 Continue the development of an integrated approach between child mental health, paediatric services including child development, child disability support services alongside education / Ministry	Q1 – Q4	▪ Improved integration between services.	Clare D / Judith B.	Anna H & Matt R	Improved Environment supports health and wellbeing. Delayed / avoided burden of disease and long term conditions.

neuro-developmental issues and or disabilities.		of Education (Service Development Group)					
Child and Family Safety							
4. Caring for vulnerable children	EOA	4.1 Collaborate with Oranga Tamariki to ensure the joint focus on vulnerable children and young people is maintained as the transition of Children's Team into new models of intensive care and early intervention over the next two to three years.	Q1 – Q4	<ul style="list-style-type: none"> Local Governance Group Workshop held to determine future direction for Canterbury Children's Team. 	Clare D	Wayne T	Improved Environment supports health and wellbeing.
		4.2 Development of a joined up approach between health, education, and Oranga Tamariki on understanding and providing trauma informed care.	Q1 – Q4	<ul style="list-style-type: none"> Development of care pathways for trauma informed care (check with Mana Ake) (Service Development Group) Cross sector training programmes delivered on Trauma Informed care 	Clare D	Donna E	Improved Environment supports health and wellbeing. Decreased wait times.
	EOA	4.3 Improve the provision of child health interventions, including appropriate referrals and access to Family Start/ Early Start, Teen Parent Units and Oranga Tamariki.	Q2	<ul style="list-style-type: none"> Increased uptake of Family Start/ Early Start, Teen Parent Units and Oranga Tamariki interventions 	Clare D	Wayne T / Donna E	
		4.4 Develop systems for the coordination of data and information sharing between Health, ISR, Oranga Tamariki, Education, and Police.		<ul style="list-style-type: none"> Information sharing in place 		Wayne T	
Adolescent and Early Adulthood Health and Wellbeing							

5. Supporting Health in Schools		5.1 Promote the CDHB alcohol harm reduction strategy in schools.	Q1 – Q4	<ul style="list-style-type: none"> Promotion in schools occurs 		Kerry M	Improved Environment supports health and wellbeing.
6. Transition from child to adult health services		6.1 Promote the transition of young people to adult health services that meet the needs of 16-25 year olds with complex care needs (medical, disabilities).	Q4	<ul style="list-style-type: none"> Recommendations of the paediatric collaborative transition group and Ministry of Health mental health service transition guidelines progressed. 	Nicola Scott / Judith B	Melissa K / Monique G	

Family wellbeing

7. Increase family's living in warm homes	SLM	7.1 Instigate action to reinstate a warm housing programme	Q2 – Q4	<ul style="list-style-type: none"> A warm housing programme is established in partnership with EECA. 		Bridget Lester	Improved Environment supports health and wellbeing.
--	-----	--	---------	---	--	----------------	---

SECTION TWO: Child and Youth Health Workstream monitoring of other ongoing work related to child and health wellbeing through receiving of regular reporting

1. Maternity Strategy		Quarterly reporting	Nicky S.
2. Maternity Quality & Safety Programme		Annual reporting	Sam Burke
3. Improve delivery of pregnancy/parenting courses		Quarterly reporting	Rachel Thomas
4. Raising Healthy Kids		Quarterly reporting	Donna Ellen
5. Immunisation		Quarterly reporting	Bridget Lester
6. Oral Health		Six monthly reporting	Bridget Lester
7. SUDI		Quarterly reporting	Nicky Smithies
8. B4SC outcomes		Six monthly reporting	Bridget Lester
9. Unintended teenage pregnancy		Six monthly reporting	Bridget Lester
10. SLM to reduce ASH rates for children		Quarterly reporting	Nicky Smithies
11. Child & Family Safety / VIP		Six monthly reporting	Pene Kingsford
12. Suicide Prevention			

13. ISR		Six monthly reporting	Pene Kingsford
14. Mana Ake		Six monthly reporting	Clare Shepard

Community Services Service Level Alliance Work Plan

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
SECTION ONE: Priority Actions Towards Transformational Change, Improved System Outcomes and/or Enhanced Integration							
1. Increased implementation of Restorative Support across Community Services	EOA	1.1 Develop a Restorative Support education strategy for the sector and wider public including: <ul style="list-style-type: none">Socialising a Restorative model of careRevising the relevant HealthPathwaysDeveloping and implementing a communications plan	Q1 Q2 Q2-3 Q4	<ul style="list-style-type: none">Plan for socialising Restorative Model of Care finalised.HealthPathways revised.Communications plan developedCommunications plan implemented.	Glenda Rich	Andrea Davidson Greta Bond	Fewer people need hospital care. People are supported to stay well. Access to care improved.
		1.2 Implement a new referral form for Restorative Support by: <ul style="list-style-type: none">Piloting a new referral formGathering feedback to inform revision of the formImplementing the final referral form	Q1 Q2 Q3	<ul style="list-style-type: none">Pilot completed and feedback received.Final referral form developed.Referral form implemented.	Glenda Rich	Karen Dennison	Collaborative plans of care. Effective transfer to care. Resources matched to need.
2. Ethical Framework for service delivery	EOA	2.1 Implement an ethical framework to guide service delivery	Q1 Q2	<ul style="list-style-type: none">Final draft framework approved by SLAPlan agreed and implemented.	Kate Lopez	Andrea Davidson	Equity; Living within our means; No wasted resource

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
3. Equitable access to services for Māori	EOA	3.1 With the HOPWS continue to develop support services for kaumātua in rural areas by: <ul style="list-style-type: none"> ▪ Submitting a business case for the kahukura project in Birdlings Flat. ▪ Establishing the Birdlings Flat programme. ▪ Analysing the programme and assessing the kahukura project. ▪ Completing a business case for the wider roll-out of the project. 	Q1 Q1 Q3 Q4	<ul style="list-style-type: none"> ▪ Business Plan submitted ▪ Programme established in Birdlings' Flat ▪ Programme analysed and project assessed ▪ Business case for wider roll-out completed. 	Irihapeti Bullmore	Greta Bond	Equity; Resources matched to need; Increased equity of access
4. Equitable access for support services for the Pasifika and CALD communities	EOA	4.1 Continue to develop support services for the Pasifika Community. <ul style="list-style-type: none"> ▪ Establish a planning group. ▪ Meet with stakeholder groups in the Pasifika community. ▪ Develop a Pasifika strategy and implementation plan. 	Q1 Q1-Q3 Q4	<ul style="list-style-type: none"> ▪ Planning group established ▪ Meetings completed ▪ Pasifika strategy and implementation plan developed 	Anne Roche	Karen Dennison	Equity; Resources matched to need; Increased equity of access; Access to care improved
	EOA	4.2 Continue to develop support services for the CALD, refugee, and migrant community including:	Q1 Q1-Q3 Q4	<ul style="list-style-type: none"> ▪ Planning group established ▪ Meetings completed ▪ CALD strategy and implementation plan developed 	Anne Roche	Karen Dennison	Equity; Resources matched to need; Increased equity of access; Access to care improved

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
		<ul style="list-style-type: none"> Establish a planning group. Meet with stakeholder groups in the CALD community. Develop a CALD strategy and implementation plan. 					
SECTION TWO: Actions Towards Monitoring Progress							
5. Elder Abuse/ Social Isolation		5.1. Monitor scores of interRAI assessments.	Q1-Q3	<ul style="list-style-type: none"> Reports received and considered 		Greta Bond	People are supported to stay well
6. Equitable delivery of Rural Community Services	EOA	6.1. Receive reports from the Rural Health WS on rural models of care	Q1-Q4	<ul style="list-style-type: none"> Reports received 		Greta Bond	Equity; Increased equity of access; Access to care improved
7. Monitor delivery of interRAI assessments		7.1. Receive reports on: <ul style="list-style-type: none"> Method of Assessing Priority Levels (MAPLe) scores Institutional risk Clinical Assessment Protocols (CAP) Social relationship CAP Appropriate medications CAP. 	Q1-Q4	<ul style="list-style-type: none"> Reports received and considered 	Kate Lopez	Andrea Davidson	Access prioritised; Earlier diagnoses; timely access to supports
8. Monitor progress of Bariatric workgroup		8.1. Receive reports on progress of this group.	Q1-4	<ul style="list-style-type: none"> Reports received 	Jane Evans	Andrea Davidson	

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
9. Monitor the uptake of Personalised Care Plan		9.1 Establish a baseline measure of the number of Personalised Care Plans and monitor any change in baseline metrics.	Q1 Q2	<ul style="list-style-type: none"> Baseline measures for care plans established. Improvements measured against metric. 	TBA	Karen Dennison	Collaborative plans of care;

SECTION THREE: Key metrics the group will use to indicate progress with delivering work plan actions, impact on health outcomes and/or monitor performance targets

Description of Metric	Data Source	Comments on access to data / metrics
1. interRAI assessments per 1000 population 65+ (55+ Māori)		
2. % of HBSS clients 65+ with an interRAI		
3. % of people receiving HBSS that have an Advance Care Plan		
4. % of people receiving HBSS that have a cognitive impairment		
5. % of HBSS clients with a Home Care assessment that are MAPLE 5 (receive 24hr supervision)		

Coordinated Access on Release Service Development Group Work Plan

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
SECTION ONE: Priority Actions Towards Transformational Change, Improved System Outcomes and/or Enhanced Integration							
1. Improve access to services for people on release		1.1 Any identified initiatives are bought to the service development group to determine next steps following project methodology e.g. scope, capacity and suitability.	TBC	<ul style="list-style-type: none">New initiatives are identified and are successfully established as pilot where appropriate.	Nathan Toni	Melissa Pablo	
		1.2 Develop a HealthPathways page which provides guidance to general practitioners on how to access navigation services for people on release.	TBC	<ul style="list-style-type: none">HealthPathways page is developed	Jeremy Health-pathways member	Kathy	
		1.3 Communicate pilot/s including successes and areas for improvement.	TBC	<ul style="list-style-type: none">All communications distributed through the agreed communication channels with the parties involved	Carolyn Elly Nathan	Hiedee	
		1.4 Embed pilot/s into existing services across the system where appropriate.	TBC	<ul style="list-style-type: none">Services embedded and are seen to be business as usual.	Toni	Melissa Pablo	
2. Identify an appropriate governance group for the		2.1. Work towards a long term solution for governance for the service development	TBC	<ul style="list-style-type: none">The work group’s work is overseen by an appropriate SLA within CCN.	Jeremy Paul	Jane	

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
Coordinated Access on Release work group		group, perhaps Pop Health and Access SLA					

SECTION TWO: Actions Towards Monitoring Progress

3. Provide sustainable and integrated programmes		3.1. Monitor the effectiveness of programmes including; <ul style="list-style-type: none"> Guided release Justice precinct Free & extended consultations 	TBC	Reporting occurs on: <ul style="list-style-type: none"> Numbers of participants referred by ethnicity. Number of participants enrolled by ethnicity. Number of free & extended consultations with general practice. An evaluation of pilots when available. 	Nathan Toni Melissa	Kathy	
--	--	---	-----	---	---------------------------	-------	--

SECTION THREE: Key metrics the group will use to indicate; progress with delivering work plan actions, impact of actions on health outcomes, monitor performance targets etc. (Consider whether the data is available in a way that identifies any inequity of health outcomes or access to services)

Description of Metric	Data Source	Comments on access to data / metrics
1. Number of participants enrolled and number of participated in general practice at 3/6 months	CDHB/Pegasus	Melissa & Kathy to provide

Falls & Fractures Service Level Alliance Work Plan

	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
		post-fragility fracture, through: <ul style="list-style-type: none"> Identifying a baseline of prescribing habits (inpatient and community), Identify factors impacting delivery and compliance 	Q2	<ul style="list-style-type: none"> Report on biphosphonate prescribing trends and delivery received Q2. 	John Geddes	Lynda Te Momo	

SECTION TWO: Actions Towards Monitoring Progress

5. Fewer fall injuries	SLM	5.1 Maintain people aged 75+ access to In-Home falls prevention programs.	Ongoing	TARGET: 300 people (75+) per quarter (annual total target: 1,200).	Ken Stewart	Heather Bushaway	Acute Hospital Bed Days Reduced acute admissions following a fall
		5.2 Monitor hospital-acquired conditions (HAC) and mortality rate (30 days & 180 days post-surgery) for patients with #NOF.	Q1 & Q3	<ul style="list-style-type: none"> ANZHFR dashboard update received 6-monthly. 	John Geddes	Rentia Hurter	Decreased avoidable mortality Decreased in-hospital mortality

SECTION THREE: Key metrics the group will use to indicate progress with delivering work plan actions, impact on health outcomes and/or monitor performance targets

Description of Metric – Core / clinical metrics	Data Source	Comments on access to data / metrics
1. Number of classes, places, reach, super-reach and average utilization of Community Group Strength & Balance Classes, including cultural appropriate class measure	Sport Canterbury	
2. Number of acute admissions following a fall for 65+ year olds (55+ for Māori and Pasifika)	CDHB / sfn	
3. Number of acute hospital admissions for #NOF for 75+ year olds (65+ for Māori and Pasifika)	CDHB / sfn	

4. Number of non-acute bundles of care delivered to patients by CREST	CDHB	
5. Number of people on bisphosphonates in Canterbury compared Nationally	HQSC Dashboard	
6. Number of Canterbury patients 75+ years old (65+ for Māori and Pasifika) utilising In-Home FPP	CDHB /	
7. Number of 65+ year olds (55yrs+ for Māori and Pasifika) presenting with a fragility fracture at after-hours, referred to the Falls Prevention Programme (FPP) and /or on bisphosphonates	Pegasus Health & FLS	
8. Number of fractured NOF and humerus referred to FPP as a result of the automatic referral pilot (Q2 & Q4)	CDHB	

Health of Older People Workstream Work Plan

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
SECTION ONE: Priority Actions Towards Transformational Change, Improved System Outcomes and/or Enhanced Integration							
1. Equitable access to services for kaumātua	EOA	1.1 Develop support services for kaumātua in rural areas by: <ul style="list-style-type: none">▪ Submitting a business case and establishing the Birdlings Flat kahukura programme.▪ Collecting data (including feedback from Kaumātua)▪ Completing a review of the programme including its feasibility.▪ Completing a business case for roll-out to a second rural marae.▪ Planning plan for a hui at the second rural marae.	Q1 Q1 Q3 Q4 Q4	<ul style="list-style-type: none">▪ Business Plan submitted▪ Programme established in Birdlings Flat▪ Programme analysed & project assessed▪ Business case for wider roll-out completed.▪ Initial plan for hui at other rural marae completed	Annette Finlay/ Irihapeti Bullmore	Greta Bond	Equity; People are supported to stay well; Community resilience/capacity enhanced
2. Improved actions to meet anticipated increase in people with Dementia		2.1. Develop information on dementia prevention by agreeing a set of messages and work with Community & Public Health to socialise these.	Q1 Q2-Q4	<ul style="list-style-type: none">▪ Messages agreed.▪ Messages socialised.	Matthew Croucher	Greta Bond	People are supported to stay well; Protecting people against health hazards; protective factors enhanced; Population interventions; Risk factors addressed
		2.2. Work with PHOs to promote benefits of early diagnosis for people with dementia and their family/ whānau by	Q1 Q2 Q2-4	<ul style="list-style-type: none">▪ Stocktake of referrals completed and frequent referrers identified▪ Messages distributed	Matthew Croucher	Greta Bond	Timely access to supports; Earlier access to specialist advice;

8. Pulmonary rehabilitation referrals, attendances by ethnicity	Local Medtech & Excel spreadsheet	
9. Number of groups and participants in community exercise	Excel spreadsheet	

Laboratory Service Level Alliance Work Plan

Following a workshop on the achievements of the Laboratory SLA and possible future priorities, work is required to confirm:

- The change required in this service area that would support our system objectives
- The priority for this work to progress; and
- The role of the SLA as a mechanism for progressing this change.

Once the future role and scope of the SLA is confirmed a work plan for 2019-20 will be submitted, as necessary.

Mana Ake Work Plan

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
SECTION ONE: Priority Actions Towards Transformational Change, Improved System Outcomes and/or Enhanced Integration							
1. Mana Ake implemented across all school clusters in Canterbury	EOA	1.1. Support school clusters to implement Mana Ake.	Ongoing	<ul style="list-style-type: none">All primary schools, have access to Mana Ake.A range of group programmes offered by Mana Ake is available across clusters.	Clare	Murray	Improved access; decreased wait times; equitable access across Maori and other priority populations; reduce accessing of specialist mental health support. Local community needs are met. Mana Ake Outcomes framework.
		1.2. Further develop processes to support service delivery and ongoing improvement.	Ongoing	<ul style="list-style-type: none">Satisfaction surveys.		Desiree	
2. School clusters are supported to develop collaborative practices to prioritise use of resources		2.1 Maintain facilitated meetings to develop consistent processes around Mana Ake across clusters.	Ongoing	<ul style="list-style-type: none">Facilitation cluster wide meetings occur at least each school term.	Clare	Murray	Equitable use of resource – early intervention; no wasted resource.
		2.2 Work with clusters to establish well-being orientated strategic goals.	Dec 2019	<ul style="list-style-type: none">All clusters have a wellbeing strategic goal.		Murray	
		2.3 Support clusters to access Mana Ake / pastoral support data to inform their decisions on best use of resources.	Ongoing	<ul style="list-style-type: none">Clusters provided with data and supported with its use.		Caralyn	
		2.4 Support the establishment of cluster-wide meetings to collectively develop the effective use of pastoral resources.	Dec 2019		Murray		

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
3. Communities are better connected to support wellbeing outcomes		3.1 Explore possibility of mapping community networks alongside schools and community organisations.	July 2019	<ul style="list-style-type: none"> Feasibility established. 	Ken	Caralyn	Well and healthy in their own homes/communities.
		3.2 Make Leading Lights pathways visible across a wide range of organisations 3.3 Explore mechanisms for providing culturally appropriate online information to whanau; consistent with resources available through Leading Lights.		<ul style="list-style-type: none"> Leading Lights used by system partners to guide consistent approaches. 	Clare	Murray Anna	
		3.3 Seek opportunities to connect with, and across, a variety of organisations to maximise wellbeing outcomes.		<ul style="list-style-type: none"> Schools, organisations and whanau report more accessible support networks for children, whanau and communities. 	Clare	Murray	
		3.4 Explore approaches to enhance the interface and connection between schools and the Canterbury health system, with a specific focus on general practice.	May 2019	<ul style="list-style-type: none"> Exploration of approaches completed. 	Clare	Clare	
		3.5 Apply learnings from this investigation to implement an agreed approach to strengthen the interface between schools and general practice/primary care across Canterbury.	Sept 2019	<ul style="list-style-type: none"> An effective interface between schools and general practice/primary care is implemented. 	Clare	Clare	

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
4. Mana Ake providers work collectively to build sustainable approaches to support wellbeing		4.1. Work with providers to consistently support kaimahi including: <ul style="list-style-type: none"> ▪ Share data including narrative information across providers. ▪ Maintain monthly provider forums including team leaders and supervisors to enhance capacity and consistency. 	Ongoing	<ul style="list-style-type: none"> ▪ Data and narrative shared. ▪ Increase in cross agency referrals. 	Clare	Desiree	No wasted resource
5. The network of support (system of care) for Maia and her whanau is easy to access and understand		5.1 Clarify the network of available support available by: <ul style="list-style-type: none"> ▪ Providing early intervention through Mana Ake in a way that enhances what is already in place. ▪ Maintaining Leading Lights provision of clear pathways of support ▪ Continue providing advice, guidance and support for whanau and educators. 	Ongoing	<ul style="list-style-type: none"> ▪ Agencies report more targeted referrals. ▪ Educators report more clarity and confidence of when to access support and where to go. ▪ Whanau report satisfaction with and easier access to support. 	Clare	Bruce	Equitable access to resources
6. Have ways to demonstrate the impact of Mana Ake		6.1 Further develop and implement a comprehensive evaluation approach.	Ongoing	<ul style="list-style-type: none"> ▪ Evaluation approach endorsed by the SLA. 	Ken	Caralyn	

SECTION TWO: Actions Towards Monitoring Progress:

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
7. Mana Ake implemented across all school clusters in Canterbury	EOA	7.1 With the provider network appoint kaimahi with the appropriate skills, knowledge and cultural diversity.		<ul style="list-style-type: none"> 80 FTE kaimahi with diverse skills, experience and cultures are appointed. 	Karaitian a Tickell	Clare Shepherd	Improved access; decreased wait times; equitable access; reduce accessing of specialist mental health support.
8. Implement Mana Ake evaluation approach		8.1. Monitor impact of the implementation approach in selected clusters. 8.2. Capture feedback from tamariki, whānau and teachers. 8.3. Capture Tu Tauira data for individual case work. 8.4. Capture feedback from kaimahi, providers and partners with regard to impact of Mana Ake. 8.5. Liaise with sector partners to capture key data points and assess relevance for Mana Ake	Ongoing to June 2021 June 2019 & ongoing Ongoing to June 2021 Ongoing to June 2021 Ongoing to June 2021	<ul style="list-style-type: none"> Schools report benefits such as increased knowledge, improved systems, and fewer service gaps. Improved outcomes for Maia; whanau and teachers better supported. Students show improvement across the domains, as appropriate. System partners report positive impacts for children and for their services of working more closely together. Reduced wait times for services; increased school attendance; reduced demand for specialist services. 	Ken	Caralyn/ Murray	

SECTION THREE: Key metrics the group will use to indicate; progress with delivering work plan actions, impact on health outcomes and/or monitor performance targets

Description of Metric	Data Source	Comments on access to data / metrics
<p>1. Pharmacy Service Level Alliance Work Plan

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
SECTION ONE: Priority Actions Towards Transformational Change, Improved System Outcomes and/or Enhanced Integration							
1. Create a platform and pathway for improved services for patients		1.1 Implement and evaluate service models for integrated and pro-active pharmacist care for people with chronic physical and/or mental health conditions who enrol with their preferred provider	Q1-4	<ul style="list-style-type: none">Pilot service for people receiving opioid substitution treatment established by Q2, in collaboration with the Mental Health workstream.Evaluation of the pilot completed by Q4.	Simon Church	Gareth Frew	Timely access to primary care. Increased planned care rate. Delayed/avoided burden of disease & long term conditions.
2. Safer, efficient transfers of care for people being admitted and discharged from hospital		Develop an agreed communication protocol/pathway to support a safe pathway for patients admitted to, and discharged from, hospital. 2.1 Work group to develop: <ul style="list-style-type: none">A quick medication reconciliation guide for pharmacists which includes; a flowchart to illustrate the suggested process.A pharmacist medication reconciliation summary for GP’s, outlining the intervention and the value proposition.	Q1-4	The following will be developed; <ul style="list-style-type: none">Quick medication reconciliation guide for pharmacists.A summary of medication reconciliation pharmacy process for GPs.	Gareth Frew	Mike James/ Rebecca Muir	Decreased institutionalisation rates. Decreased wait times. Delayed / avoided burden of disease & long term conditions. No wasted resource. Decreased adverse events.
		2.2 Contribute to the development of a model of care that supports integration between primary and secondary pharmacy services.	Q4	<ul style="list-style-type: none">Members of SLA will contribute to tasks that have been identified in the workshop on the future of	Helen Little	Mike James	<ul style="list-style-type: none">

				hospital pharmacy report produced in Feb 2019.			
3. Reduced patient risk from inappropriate polypharmacy and optimise their care	SLM	3.1 Increase the assessment of people who are most at risk from polypharmacy (including those referred for falls prevention support).	Q1-2	<ul style="list-style-type: none"> ▪ Increase GP referrals to Medicines Therapy Assessments ▪ Up to 240 MTA completed in 2019-20 	Gareth Frew	Aarti Patel	Decreased adverse events Decreased institutionalisation rates
	SLM	3.2 Enhance collective impact to identify opportunities to improve and integrate MMS and other services to reduce inappropriate polypharmacy.	Q1-2	<ul style="list-style-type: none"> ▪ New opportunities identified, scoped and discussed with PSLA members. 	Gareth Frew	Rebecca Muir	
4. Advance model of Care for community pharmacy to improve services of patients with long term conditions.		4.1 Work group will develop a set of principles and framework that could be used to inform local redevelopment of the pharmacy Long Term Conditions (LTC) service.	Q1-4	<ul style="list-style-type: none"> ▪ A set of principles are defined and an agreed framework is developed. 	Gareth Frew	Rebecca Muir	Delayed / avoided burden of disease & long term conditions. No wasted resource
5. Contribute to local antibiotic stewardship initiatives.		5.1 Promote antibiotic stewardship by contributing to the development or refinement of antibiotic stewardship resources to ensure these are fit for purpose for pharmacy.	Q1-4	<ul style="list-style-type: none"> ▪ Updated resources distributed to community pharmacies. 	Gareth Frew	Ian Town	No wasted resource
6. Future Service development of pharmacist led clinical services		6.1 Develop a guide for the development of pharmacist led clinical services in the new Zealand pharmacy context.	Q1-4	<ul style="list-style-type: none"> ▪ A student will research and develop a resource that can be used to inform future service development 	Gareth Frew	Steve Duffull/ Kezia Buttle	
<ul style="list-style-type: none"> ▪ SECTION TWO: Actions Towards Monitoring Progress 							

7. Improve patient health literacy to support their self-managing of their medicines.		7.1 Monitor pharmacist support for people with chronic conditions to self-manage their medicines well.	Q1-4	<ul style="list-style-type: none"> 14,000 people receive the Pharmacy LTC Service 1,500 people receive a Medicines Use Review 	Gareth Frew	Rebecca Muir	
		7.2 Review messaging and available resources about self-management of medicines across the system to ensure that messaging is consistent across community and hospital pharmacies.	Q1-4	<ul style="list-style-type: none"> Messaging and resources provided by both community and hospital pharmacies are consistent across the system. 			
8. Equitable health outcomes for; <ul style="list-style-type: none"> Maori Pasifika Other migrant populations. 	EOA	Promote existing and new partnerships to enhance the roles of pharmacists and support access to pharmacy services at events for Māori, Pasifika and migrant communities. 8.1 CCPG to support Pharmacist champions to provide mobile clinics with a Kaupapa Māori lens. This includes performing the medication management service in ethnically appropriate locations such as on the Marae, and using an adapted Māori health framework to help improve the service outcomes for Māori.	Q1-4	<ul style="list-style-type: none"> Patient feedback will be received regarding appropriate delivery of medication management services on Marae's. 	Gareth Frew	Rebecca Muir	<ul style="list-style-type: none"> Delayed/ avoided burden of disease & long term conditions. Decreased adverse events. Decreased institutionalisation rates. Decreased acute care rate; Increased planned care rate.
		8.2 Leverage existing health days, church projects and consider Community Outreach	Q1-4	<ul style="list-style-type: none"> Community pharmacists will be supported to participate in health hui's on a quarterly basis. 			

		opportunities for Maori, Pasifika and other migrant populations.					
--	--	--	--	--	--	--	--

SECTION THREE: Key metrics the group will use to indicate progress with delivering work plan actions, impact on health outcomes and/or monitor performance targets

Description of Metric	Data Source	Comments on access to data / metrics
1. MMS Provision – trends and variations by age, ethnicity and urban / rural location	CCPG	
2. Pharmacy LTC Service patient enrolments	CDHB	
3. MTA quality measure – prescribing trends 12 months post-MTA	CCPG/CDHB SFN	
4. The rate of people dispenses with 11 or more long term medications	Nicky Smithies	

Population Health Service Level Alliance Work Plan

elated inequities		ALT, Population Health & Access SLA, Māori Caucus, and TKOP.					
8. Amenable mortality	SLM	9.1 Monitor the referrals to Green Prescription	Ongoing	<ul style="list-style-type: none"> Target of 4,000 referrals/annum 	Lynley Cook	Jonathan Amos Matthew Reid	Goal 1 - People take greater responsibility for their own health:
		9.2 Develop a system wide approach to increase cervical screening coverage		<ul style="list-style-type: none"> A proposed approach to increasing cervical screening coverage developed 	Lynley Cook	Jonathan Matthew	

SECTION THREE: Key metrics the group will use to indicate; progress with delivering work plan actions, impact of actions on health outcomes and/or monitor performance targets

Description of Metric	Data Source	Comments on access to data / metrics
1. Better Help For Smokers to Quit – Primary, Secondary, Maternity	MoH	
2. Amenable mortality: Maintain the downward trend over time: 30 June 2019 of 83 per 100,000.	MoH NSFL	
3. Quarterly performance reporting of Te Hā – Waitaha data to MoH	CDHB	
4. Quarterly performance reporting of GRx Referral data to CDHB	Sports Canterbury / CDHB	
5. Quarterly performance reporting of Motivational Conversation Service provision	Pegasus / CDHB	
6. Quarterly performance reporting of cervical screening coverage	MoH NSU	
7. National Cervical Screening Programme Coverage Data	National Cervical Screening Programme	

Primary Care Capability Service Level Alliance Work Plan

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
SECTION ONE: Priority Actions Towards Transformational Change, Improved System Outcomes and/or Enhanced Integration							
PCC SLA ROLE ONE: Providing strategic leadership to the enablers listed in the ToR.							
1. Improve the person and their whanau's experience of primary care	EOA	1.1. Advance models of primary care that improves a person and their whanau's experience of care and /or increases the sustainability of primary care through <ul style="list-style-type: none"> Agreeing measures of progress and impact of the; IFHS / HCH initiative. Monitoring implementation of the IFHS / HCH initiative and performance against these measures. 	Q2	<ul style="list-style-type: none"> Metrics agreed by IFHS operational group including measures of, a person / whanau experience, practice and system (including ethnicity measures). 	David Pilbrow	Sue Wood	Increased planned care rate Decreased acute care rate
		1.2. Explore information available about people and their whanau's experience of primary care and identify opportunities to strengthen how this can be used to improve the provision of primary care including: <ul style="list-style-type: none"> Understanding the strengths, limitations, and ability to localise the National Patient Experience Survey. Identify other sources of patient information. 	Q4	<ul style="list-style-type: none"> Identify opportunities for integrating information about patient experience across primary care (with a focus on SLMs). 		Jackie, Lovey, Malu and Fran	

2. Improve the coordination of care of people with complex needs	EOA	2.1. Review the general practice report on the use of Enhanced Capitation funding and apply learnings from the report to advance models of primary care.	Q3	<ul style="list-style-type: none"> General practice report completed. (Narrative from the report to support Planned: Unplanned Care measures.) 	Lorna Martin	Jon Amos Linda Wensley	Increased planned care rate Decreased acute care rate Delayed/avoided burden of disease and long term conditions
		2.2. Monitor the distribution of Enhanced Capitation funds and the refresh of the algorithm for the distribution of funds.	Q4	<ul style="list-style-type: none"> Refresh of algorithm completed. 	Lorna Martin	Jon Amos	
		2.3. Agree measures of progress and impact of the shared care planning.	Q4	<ul style="list-style-type: none"> Measures agreed and collection of the data established. 	Rose Laing	Rebecca Muir	
		2.4. Monitor implementation of the Collaborative Care initiative.		<ul style="list-style-type: none"> Acute Plan and Personalised Care Plan use monitored. 		SLA	Delayed/avoided burden of disease and long term conditions
PCC SLA ROLE TWO: Optimising our system enablers							
3. Ensure alignment of system enablers		3.1. Shared alignment and adoption of the three enablers within the PCC SLA	Q3	<ul style="list-style-type: none"> Measures of alignment agreed by project / clinical leads of the three enablers 	Rosie Laing, Lorna Martin & David Pilbrow	Rebecca Muir, Sue Wood and Jon Amos	No wasted resource
4. Improve wellbeing of Primary Care workforce.		4.1. Alignment of health and wellbeing of the Canterbury health system workforce with the Te Tatau Ora and PHO priorities.	Q4	<ul style="list-style-type: none"> Align opportunities to improve the wellbeing of the primary care workforce. 	Ken Stewart	Greta Bond	Improved environment supports health and wellbeing

PCC SLA ROLE THREE: Monitor and contribute to the strategic direction of Primary Care							
5. Learn from other health systems about innovative ways to improve outcomes in Primary Care	EOA	4.1 Facilitate discussion on improvement of the delivery of Primary Care health care in a New Zealand and international context.	Q4	<ul style="list-style-type: none"> Information about local innovation collated and shared across the system. 	SLA	SLA	No wasted resource
SECTION TWO: Actions to Monitor Progress							
6. Monitor impact of Community Services Card holder Policy change		4.1 Assess information on the impact of CSC Policy change including any impact on capacity of general practice and people and their whanau's access to care, across the health system	Q2 & Q4		SLA	Erin / Hiedee	Increased planned care rate Decreased acute care rate

SECTION THREE: Key metrics the group will use to indicate progress with delivering work plan actions impact on health outcomes and monitor performance.	
Data Metric Definition	Data Source
ROLE ONE:	
1. General practice engagement in IFHS / HCH including analysis of the practices by percentage of high needs patients. Further outcome measures under development.	PHOs
2. Acute, Personalised Care Plan: Measures under development.	
ROLE TWO:	
3. Measures of Primary Care Workforce Wellbeing – yet to be determined	
4. Measures of Patient Experience of Primary Care including by ethnicity – yet to be determined	

Rural Health Workstream Work Plan

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGETS/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOMES
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
SECTION ONE: Priority Actions Towards Transformational Change, Improved System Outcomes and/or Enhanced Integration							
1. Advocate for sustainable rural workforce nationally		1.1 Actively advocate to strengthen the rural workforce by providing a Canterbury response to national organisations activity / focus, including NRHAG & RHAANZ ¹ .	Q1- Q4	<ul style="list-style-type: none">Submissions provided to NRHAG, RHAANZ and MoH as necessary.	Lorna Martin Justine Schroder	Bill Eschenbach	No wasted resource. Resources matched to need; appropriate workforce levels; no stranded patients.
2. Improved Emergency Response in rural Canterbury		2.1 Complete a stocktake and summarise the emergency response across rural Canterbury, including: <ul style="list-style-type: none">Availability of services, workforce and resources.Service demand.Response and transportation times.Christchurch Hospital ED and Urgent Care Centres attendances.	Q2–Q4	<ul style="list-style-type: none">Stocktake and report completed by Q4.	St John TBC	Bill Eschenbach Koral Fitzgerald	Decreased institutionalisation rates. Rapid access to assessment. coordinated care; build functional capability. Decreased wait times Acute community response. 24 hour access to primary care intervention.

¹ National Rural Health Advisory Group (NRHAG) and Rural Health Alliance Aotearoa New Zealand (RHAANZ)

		<ul style="list-style-type: none"> Identification of any gaps and opportunities for improvement. 					
3. Enrich our relationship with Manawhenua ki Waitaha	EOA	3.1 Attend the Manawhenua ki Waitaha Board hui biannually to korero on RHWS activity and seek feedback.	Q2 & Q4	<ul style="list-style-type: none"> Attendance at Manawhenua ki Waitaha Board hui completed biannually. 	Jaana Kahu Jane Cartwright	Koral Fitzgerald	Improved environment supports health & wellbeing Building population health capacity & partnerships; understanding health status and determinants.
	EOA	3.2 Identify any opportunities to align / contribute to the Older People Workstream (HOPWS) Kaumatua visits.	Q1-Q4	<ul style="list-style-type: none"> Opportunities identified to align / contribute to HOPWS visits. 	Jaana Kahu	Koral Fitzgerald, Greta Bond	
4. Develop a Rural Restorative Model of Care		4.1 Work with Community Services Service Level Alliance (CSSLA) to implement rural restorative models of care recommendations in the Hurunui and Oxford Models of Care.	Q1 - Q3	<ul style="list-style-type: none"> Hurunui and Oxford restorative models of Care established by Q3. 	TBC	Koral Fitzgerald Michael James	No wasted resource Resources matched to need; appropriate workforce levels; right care, right place, right time, right person
		4.2 Agree a local approach to delivering rural restorative care in Canterbury by: <ul style="list-style-type: none"> Capturing learnings from the Hurunui and Oxford areas; Reviewing restorative care models in urban 	Q3-Q4	<ul style="list-style-type: none"> Learnings from Hurunui and Oxford summarised by Q4; Locally agreed approach to rural restorative care completed by Q4. 	N/A	Koral Fitzgerald RHWS	

		and rural settings across NZ; <ul style="list-style-type: none"> ▪ Drawing on South Island Alliance Programme Office (SIAPO) Restorative Care resources. 					
		4.3 Work with CSSLA to identify any updates to HealthPathways, HealthInfo, and Allied Healthways required.	Q4	<ul style="list-style-type: none"> ▪ Updates to HealthPathways HealthInfo, and Allied Healthways completed, as necessary. 	N/A	Koral Fitzgerald	
5. Increased use of technology in rural settings to improve communities access to quality care		5.1 Map the current IT hardware / software across rural areas including the capability it provides, and monitor any ongoing developments.	Ongoing	<ul style="list-style-type: none"> ▪ Mapping exercise completed by Q1 and further changes monitored. 	N/A	Koral Fitzgerald Win McDonald	No wasted resource Timely access to primary care; no stranded patients. Decreased institutionalisation rates Coordinated care; build functional capability
		5.2 Monitoring progress towards the consistent provision of specialist follow up appointments for people based rurally.	Ongoing	<ul style="list-style-type: none"> ▪ Regular updates on progress with provision of specialist follow up appointments using telehealth received. 	N/A	Win McDonald	Increased planned care rate; decreased acute care rate Increased equity of access; access to care improved.
		5.3 Review the rural workforce's access to education using IT tools and progress any changes identified to improve access.	Q1-Q3	<ul style="list-style-type: none"> ▪ Review of workforce access to education completed by Q1.Changes identified to improve access implemented by Q3. 	N/A	Koral Fitzgerald	Decreased institutionalisation rates Carer/staff upskilled

SECTION TWO: Actions Towards Monitoring Progress

6. Monitor and align local service		6.1 Monitor the implementation of Models of Care in the Hurunui, Oxford and Akaroa.	Ongoing	Reports on the Hurunui, Oxford and Akaroa received quarterly	N/A	Linda Wensley,	Decreased institutionalisation rates
---	--	---	---------	--	-----	----------------	--------------------------------------

integration and improvement						Carol Horgan, Jane Cartwright	Increased planned care rate; decreased acute care rate
		6.2 Monitor service integration and improvement in Ashburton (ASLA) and Kaikōura	Ongoing	Updates on Ashburton and Kaikōura activity received as necessary	N/A	Hiedee Harris, Justine Schroder	Increased planned care rate; decreased acute care rate Access to care improved; decreased hospital acute care; increased equity of access
		6.3 Update rural service co-design documentation, including integration of learnings from the Model of Care work over the past three years as a CCN / system resource.	Q4	Principles for Integration of Rural Services' document reviewed and updated by Q4.	TBC	Win McDonald Jane Cartwright	Increased planned care rate; decreased acute care rate Access to care improved; decreased hospital acute care; increased equity of access No wasted resource Timely access to primary care; no stranded patients.
7. Monitor activity locally to develop a sustainable rural workforce		7.1 Monitor local activity including the role of nurse and PRIME practitioners, through the: <ul style="list-style-type: none"> Outcome of the Health Workforce NZ (HWNZ) application for a Rural Health Internship Pathway; PHO activity; 	Q1 & Q3	Regular updates received on: <ul style="list-style-type: none"> HWNZ application (quarterly); PHO activity (Q1 & Q3) Nurse Practitioner Peer Group (as necessary) SIAPO (Q1 & Q3) 	Jo Talarico	Bill Eschenbach Carol Glover Mike James	No wasted resource Resources matched to need; appropriate workforce levels; right care, right place, right time, right person

		<ul style="list-style-type: none"> South Island Alliance Programme Office (SIAPO) activity. 				Koral Fitzgerald	
8. Maintain oversight of Rural Subsidies activity / governance		8.1. Oversee the Rural Subsidies activity and any proposed changes to funding model. (Currently this work led by the Rural Funding SLA is in abeyance).	Ongoing	Any proposed changes provided to RHWS.	-	Koral Fitzgerald	Increased planned care rate; decreased acute care rate Access to care improved; decreased hospital acute care; increased equity of access

SECTION THREE: Key metrics the group will use to indicate; progress with delivering work plan actions, impact on health outcomes and/or monitor performance targets.

Description of Metric	Data Source	Comments on access to data / metrics
1. ED presentations of rural patients to CHED, by ethnicity	CDHB	
2. Acute bed days of rural patients, by ethnicity	CDHB	
3. Rural patients discharged from hospital (ChCh, Burwood or Ashburton) to rural community, by ethnicity	CDHB	
4. Number of clinics sessions utilising telehealth technology for specialist follow-up patient appointments across Canterbury	CDHB, PHOs, CI	
5. % of education sessions offered for GPs, nurses, community pharmacists & other allied health via telehealth/videoconferencing	CDHB, PHOs, CI	

System Outcomes Steering Group Work Plan

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGET/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOME
	EOA / SLM					CLINICAL LEAD	
SECTION ONE: Priority Actions Towards Transformational Change, Improved System Outcomes and/or Enhanced Integration							
1. Understand the data used to generate each System Level Measure.	SLM	1.1 Steering group review data linked to each System Level Measure.	Q4	▪ Each SLM and contributory measure is reviewed and made available to the relevant expert groups.	Les Toop / Greg Hamilton	Simon Berry / Nicky Smithies	Assisting expert groups access data to inform and prioritise activity that will improve health outcomes and System Level Measures.
		1.2 Facilitate service alliances and expert groups in reviewing the relevant data.					
2 Contributory measures developed with equity as a focus.	SLM	2.1 Review contributory measures to ensure they reflect priorities of our system with a focus on reducing inequities.	Q1-4	▪ Review and update as needed through system leaders collectively identifying and agreeing the contributory measures for 2020-21.	Lynley Cook	Nicky Smithies	Prioritisation of effort to improve Canterbury’s System Level Measures performance
		2.2 Contribute to the development of system wide equity measures by supporting and reflecting projects across the system					
3 Understand the accuracy of data, particularly in relation to ethnicity.	SLM	3.1 Compare health system registers to determine any discrepancy in recording of ethnicity.	Q2	▪ Any discrepancy in data is identified and a process to improve (if needed) is developed.	Greg Hamilton	Simon Berry / Matthew Reid	Improved data accuracy so that services can be developed and prioritised to improve health outcomes and System Level Measures.
		3.2 As needed, look to improve data accuracy	Q4				

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGET/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOME
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
		(implementation to occur in the following year).					
SECTION TWO: Actions Towards Monitoring Progress							
4 Monitor performance against the current plan	SLM	4.1 Quarterly review of progress against the System Level Measures and 'Actions to Improve Performance'	Q1-Q4	<ul style="list-style-type: none"> Steering Group review updated actions each quarter. 	Lynley Cook	Nicky Smithies	Enable the Steering Group's oversight of progress.
5 Complete annual Improvement Plan	SLM	5.1 Oversee the Ministry of Health requirements and guide / progress the development of the Improvement Plan.	Q4	<ul style="list-style-type: none"> Improvement Plan submitted to Ministry in required time frame. 	Les Toop / Lynley Cook	Nicky Smithies	Meet Ministry Requirements
6 Contribute to the national development of the SLM	SLM	6.1 Canterbury continues to participate in national forums; i.e. technical advisory group	Q1-Q4	<ul style="list-style-type: none"> Canterbury continues to participate in the national development. 	Les Toop / Greg Hamilton	Nicky Smithies	Actively support national adoption of using outcomes to measure performance.

SECTION THREE: Key metrics the group will use to indicate progress with delivering work plan actions, impact on health outcomes and/or monitor performance targets		
Description of Metric	Data Source	Comments on access to data / metrics
1. System Level Measures and Contributory Measures	SLM Viewer collating data from a range of sources	SOSG oversee the SLMs. Dashboard/Viewer will be updated as data becomes available.

Urgent Care Service Level Alliance Work Plan

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF UCCES / TARGET/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOME
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
SECTION ONE: Priority Actions Towards Transformational Change, Improved System Outcomes and/or Enhanced Integration							
1. Improve patient flow through the system	SLM	1.1. Proactively plan for coordinated system responses for periods of exceptional demand (Particularly during winter).	Q1-4	<ul style="list-style-type: none">Number of times acute demand reaches capacity – target is zeroNumber of times ED reaches capacity based on ED overload indicator scores.	Andrew Meads Martin Than	Rebecca & Greg	Shorter stays in Emergency Department Decreased hospital acute care
	SLM	1.2 Monitor Acute Bed Days data including by ethnicity to identify areas of opportunities to decrease length of stay.	Q1-4	<ul style="list-style-type: none">Acute bed day’s data will identify opportunities and areas of focus each	Greg Hamilton	Rebecca & Greg	
		1.3 Keep abreast of winter planning groups and plans across the system.	Q1-4	<ul style="list-style-type: none">Winter planning strategies are in place for potential challenges expected throughout the winter period.	Greg Hamilton	Rebecca & Greg	
2. Improving access to timely care	SLM	2.1 Explore ways to reach patients earlier and maintain them in a primary and secondary care setting.	Q1-4	<ul style="list-style-type: none">Areas of focus to improve access to timely care are identified	Greg Hamilton Paul Abernethy	Rebecca	Increased planned care rates Access to care improved
		2.2 Undertake a deep dive into data (Including ACC available data) to identify focus areas including areas of injury prevention and acute orthopaedic work load.	Q1	<ul style="list-style-type: none">Deep Dive completed by Q1 (The findings from the deep dive analysis will determine what projects need to occurs in the 19/20 period)	Greg Hamilton Paul Abernethy	Rebecca	Decreased acute care rates
3. Maximise the use of the		3.1. Reinvigorate the messaging around the acute demand service.	Q1-4	<ul style="list-style-type: none">General refreshed messages will be sent to all general practices and other areas of the health system.	Andrew Meads	Rebecca Muir	Access to care improved

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF UCCSS / TARGET/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOME
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
Acute Demand service		3.2 Share data around acute demand usage across general practice		▪ Acute demand data will be made available to general practice.			Decreased hospital acute care Decreased acute care rates
		3.3 Explore current acute demand utilisation and further opportunities optimise use across the system.					
4. Improve patient centred promotion of community based urgent care health services		4.1 Establish a work group to explore current promotion of community based services, including: <ul style="list-style-type: none">▪ Map out what messaging currently exists.▪ Determine patients understanding of existing community based services.		▪ Current messaging is mapped out.	TBC	Rebecca Muir	Access to care improved Decreased hospital acute care
		4.2 Work group to promote; <ul style="list-style-type: none">▪ What community based services are available 7 days a week▪ What urgent care facilities can provide.▪ How services can be accessed.		▪ Improved promotion and consistency of information about community based services	TBC	Rebecca Muir	
SECTION TWO: Actions Towards Monitoring Progress							
5. Improving patient access to care		5.1 Continue to invest in Acute Demand services that provide primary care with	Q1-4	▪ Maintain between 30,000 to 35,000 packages of care in the community by ethnicity	Andrew Meads	Rebecca & Greg	Decreased hospital acute care

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF UCCSS / TARGET/ MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOME
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
		options to support people to access appropriate urgent care in the community rather than in hospital					Decreased acute care rates
		5.2 Continue to engage with St John, ED and the Urgent Care clinics to monitor Ambulance Referral Pathways and Acute Demand services to safely manage appropriate patients in the community.		<ul style="list-style-type: none"> Total number of calls to St John in Canterbury area Number of patients St John divert away from ED quarterly, by condition reported quarterly (if available) (baseline 400 patients per annum) Percentage of these calls in relation to total call volumes ED/Hospital admissions, referrals to GP's/Urgent Care Clinics reported quarterly (Baseline for admissions from ED to hospital wards 10,500) 	Wally Mitchell	Rebecca	Decreased hospital acute care Access to care improved
6. Continue to develop and refine community based acute demand services		6.1 Continue to support the “#CareAroundtheClock” advertising campaign, which promotes calling general practice 24/7.	Q1-Q4	<ul style="list-style-type: none"> Call volumes to be monitored and reported quarterly. 	Brian O’Connell	Rebecca	Increased planned care rates Decreased acute care rates Decreased hospital acute care
		6.2 Monitor the implications of increased call volumes through Homecare Medical and the consequent impacts on general practice & the Urgent Care Clinics.		<ul style="list-style-type: none"> Homecare medical call volumes data Monitored and reported quarterly 	Brian O’Connell	Rebecca	Access to care improved

OBJECTIVE	ACTIONS		TIME FRAME	MEASURES OF SUCCESS / TARGET / MILESTONES	ACCOUNTABILITY		SYSTEM OUTCOME
	EOA / SLM				CLINICAL LEAD	PROJECT LEAD	
		6.3 Establish a process and monitor the percentage of people who present at ED or an urgent care facility following a tele triage		<ul style="list-style-type: none"> Once data is available monitor the percentage of people who present at ED or an urgent care facility following a tele triage 	Brian O'Connell	Rebecca	
7. Promote appropriate and where possible shorter stays in the Emergency Department		7.1 Work with key areas and specialities within the hospital to ensure flow through the ED to enable the national target to be met e.g. continued development and refinement of the recently implemented Production Bed Planning Model and appropriate use of the ED Observation Unit.	Q1-4	<ul style="list-style-type: none"> 95% of ED attendances waiting less than 6 hours to be treated, admitted, discharged or transferred. 	Dr Martin Than	Rebecca & Greg	Shorter stays in Emergency Department

SECTION THREE: Key metrics the group will use to indicate; progress with delivering work plan actions, impact of actions on health outcomes, monitor performance targets

Description of Metric	Data Source	Comments on access to data / metrics
1. Number of times ED reaches capacity	Decision support	
2. Acute bed days data	Decision support	
3. ED wait times (ensure national target is being met)	Decision support	
4. Non-medical admissions	Decision support	
5. Number of time ADMS reaches capacity	AMDS	Pegasus (PaulB)
6. ADMS Packages of Care	ADMS	Pegasus (Paul B)
7. Number of patients diverted away from ED	St John	
8. Total number of calls to St John each quarter	St John	
9. Care around the clock call volumes	Decision support	(Kathleen)
10. Percentage of people who present at ED or urgent care facility following teletriage	HML/Decisionsupport	Brian
