

STRATEGIC FOCUS

2019-2024

Early in 2019 Canterbury Clinical Network held a workshop with leaders working across health and social sectors, and consumers of these services, to consider how we focus our efforts to improve the health and wellbeing of our communities. Four key priorities emerged.

We recognise the Treaty of Waitangi as a foundation that guides our approach.

PRODUCTIVE PARTNERSHIPS

- Partner with Māori at every level and facilitate full Māori participation
- Support partners to have an equitable voice
- Ensure commitment to common goals through clear rules of engagement, shared vision and language
- Develop relationships beyond the health system to address the determinants of health
- Enhance partnerships with groups that experience inequities, for example Māori, Pasifika, Culturally and Linguistically Diverse (CALD), people with disabilities

MEANINGFUL ENGAGEMENT

- Provide regular training and mentoring that supports consumers to meaningfully contribute
- Proactively engage with our communities, with a focus on those the system doesn't work for
- Include a wider range of voices – different ages, ethnicities and experiences

PRIORITISE EQUITY

- Ensure diversity across all alliance groups
- Create a common understanding of equity for all alliance groups and partners to work towards
- Set time-bound targets, monitor performance
- Adapt our language and delivery to improve health literacy
- Identify priority groups that experience inequity through evidence and data

REDEFINE OUR ALLIANCE

- Review our mission and define our scope
 - Refocus our efforts on key priorities
- Build capability of current leaders and target future leaders
- Explore opportunities to strengthen the use of data available across the network
 - Capture and share lessons

OUR ALLIANCE PARTNERS

All alliance partners agree to act in accordance to the alliance charter, adhering to the alliance principles and rules of engagement.
